

Thank you, in advance for any financial contribution you can make to assist my campaign to be your next Congressman. The Federal Election Commission has many legal requirements that any/all political campaigns must comply with. All funds we receive can only be spent to defray the cost of running a campaign and communicating with you and other voters. All contributors to any federal political campaign must be identified to prohibit violations of donation limits in current election laws. We cannot accept your donation to my campaign, if you don't provide the demographic information requested in the form below. Please print this page and mail it with your contribution to the address below. All contributions will require the same donor identifying information.

Legally married couples may give up to \$5,000 from common funds, but both signatures must be named specifically on the bank account contributing the funds. Each election year has two cycles; a Primary Election and a General Election. As an example, an individual may contribute a maximum of \$2500.00 before the Republican Party Primary Election (August 2016) and an additional \$2500.00 between any necessary Run-off Election and November 8, 2016 (General Election Day). It is not permissible to combine these maximum totals in any way. The purchase of a ticket for admittance to a campaign fund raiser is legally considered a campaign contribution.**

All direct financial contributions from corporations and foreign nationals are prohibited by federal election laws.
